

Recombinant Canis Iupus familiaris CRP protein (His tag)

Description

Product name Recombinant Canis lupus familiaris CRP protein (His tag)

Catalog# ABT-9010

Known as Pentaxin

Expression system HEK 293 cells

Tags His tag C-terminus

Specifications

SDS-PAGE 25, 30 kDa, reducing conditions

Purity >95% SDS-PAGE

Form Lyophilized powder

Stability and Storage

Storage Store at $-20 \sim -80^{\circ}$ C, avoid repeated freeze/ thaw cycle

Stability Aliquot and store at -20° for 12 months.

Constituents Lyophilized from 0.22 µm filtered solution in PBS, pH7.4 and 5% trehalose.

General information

Function C-reactive protein (CRP) is a rapidly rising protein in plasma when the body is

infected or damaged. It plays a conditioning role by activating complement and

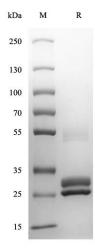

strengthening phagocytosis of phagocytes, and eliminates pathogenic

microorganisms invading the body and damaged, necrotic and apoptotic tissue

cells.

Images

Canis lupus familiaris CRP (His Tag) on SDS-PAGE under reducing condition(R). The gel was visualized by Coomassie® Blue Staining. The purity of the protein is greater than 95%.
