

## Recombinant human NMP22 with a fusion protein

## **Description**

Product name Recombinant human NMP22 with a fusion protein

Catalog# ABT-9075

**Known as** Nuclear mitotic apparatus protein 1; SP-H antigen; NuMA protein

Expression system E.coli

Tags His tag C-terminus

**Specifications** 

**SDS-PAGE** 53.5 kDa, reducing conditions

Purity >95% SDS-PAGE

Form Lyophilized powder

**Stability and Storage** 

**Storage** Store at  $-20 \sim -80^{\circ}$ C, avoid repeated freeze/ thaw cycle

**Stability** Store at  $-20^{\circ}$ C for 12 months, or reconstitute for 3 months.

Constituents Lyophilized from 0.22 µm filtered solution in PBS, pH7.4.

**General information** 

Function Microtubule (MT)-binding protein that plays a role in the formation and

maintenance of the spindle poles and the alignement and the segregation of

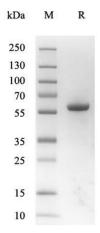

chromosomes during mitotic cell division; Plays a role in the establishment of

the mitotic spindle orientation during metaphase and elongation during

anaphase in a dynein-dynactin-dependent manner.

**Images** 

Human NMP22 with a fusion protein on SDS-PAGE under reducing condition(R). The gel was visualized by Coomassie® Blue Staining. The purity of the protein is greater than 95%.
